SAHITA 2021/22 Webinar Training

SAHITA & NABISA: Online CPD training

SAHITA has been contracted by the National Association of Building Inspectors of South Africa (www.nabisa.org.za) to provide South African building and home inspectors with a series of 2-hour training webinars focussing on key aspects of the built environment.

- NABISA members earn CPD (Continuous Professional Development) points for attending each webinar and successfully completing the webinar assessment.
- **NABISA members also receive a 25% discount on the normal webinar fee of R600 (inclusive of VAT). NABISA members pay only R480 per webinar attended.**
- All SAHITA training webinars are pre-recorded which means that, once you have paid for the webinar, you can log-in and complete the webinar at any time within 30 days of your payment.
- Each webinar will provide you with approximately 90 minutes of important information and you will then have 30 minutes to complete an online assessment test.
- Upon successful completion of the test, you will be able to download and print your SAHITA certificate verifying your participation and the number of CPD points awarded by NABISA.
- **Free eBook download on the webinar topic provided to participants**

SAHITA-NABISA webinars

- **SANS 10400:** Refresher course for everyone working in the South African built environment. A survey of SANS 10400 - Parts A to XA with reference to the National Building Regulations and other relevant national standards
